GAS CONTRACTS ARE BEING CIRCULATED

Agents Appointed to Canvas Every Block.

WORK BEGAN YESTERDAY

Many Signers Are Desired by Company.

The work of circulating gas contracts for the people of Wichita to sign is going on rapidly. The secretaries of the chamber of commerce and the Commercial club, yesterday took the name of a man in each block of the city, who will be furnished with a supply of gas contracts, and he will be expected to obtain the signatures of as many as possible of the householders of his block. By this method the entire city will be canvassed in a comparatively short time, and in a thorough manner.

As soon as these agents have completed the work in their block, the signed contracts will be returned to the office of the gas company, which will be opened this coming week. Mr. Tynge and his associates return in a few days, and they will be prepared to hold up their end of the agreement if the people signify their wish to have the gas by signing the contracts.

These men do not come asking the people of Wichita for a bonus before they begin operations, and then pay for the gas afterwards; all they ask is that the people say that they will use the gas after it is brought here. The best authorities in the city, to which is added the opinion of scientific judges from the leading colleges of the country, state that there is not a particle of doubt but that gas will be from one-fourth to one-half cheaper than coal, aside from the fact that it is so much easier and pleasanter to use.

The question will be decided this coming week, and the local promoters in charge of the work think people should wake up to a realization of what this proposition is, and what it means if it is let pass. It is expected that the canvass of the city will be completed this week, and the returns sent in; then, if the gas company is satisfied with the result, they will apply to the city council for a franchise. If they think the number of contracts obtained does not justify the amount of capital it will require to bring the gas here, the thing will drop.

The following is the form of contract which is receiving the signatures of users of fuel:

"In consideration of P. K. Tynge, or his assigns, piping natural gas to the city of Wichita, and community adjacent thereto, we, the undersigned, agree to purchase from said Tynge, or his assigns, said gas for all fuel to be used by us at Wichita, Kansas, until October 1, 1909, at the prices hereinafter mentioned, to-wit:

"Lowest price \$1.00 per month; 50 cents per 1,000 cubic feet, for 5,000 or less consumed per month; 40 cents per 1,000 cubic feet from 5,000 to 12,000 consumed; 35 cents per 1,000 cubic feet from 12,000 to 20,000 consumed; 30 cents per 1,000 cubic feet from 20,000 to 30,000 consumed; 25 cents per 1,000 cubic feet from 30,000 to 50,000 consumed; 20 cents per 1,000 cubic feet from 50,000 to 100,000 consumed; special prices over 100,000 per month.

"The amount for gas consumed each month shall be paid on or before the 15th of the succeeding month.

"There shall be no charge by said Tynge or his assigns, for any of the above period of time during which said Tynge, or his assigns, fail through unavoidable conditions to supply gas.

"The above agreement is made upon the condition that said Tynge, or his assigns, shall within ninety days commence operations for the purpose of piping said gas to Wichita, Kan., and shall thereafter complete the same, with proper diligence.

"There is no question as to the financial and business standing of the men of this company. Mr. Harris is well known to W. R. Harrison, of the Wichita Street Railway company, states that Mr. Harris is thoroughly reliable, and financially able to carry out his end of the bargain. P. K. Tynge, also is vice president of the Vincennes Electric Light and Power company of Vincennes, Indiana.

"Fred Dold, of the Dold Packing company, has estimated that near 800,000 tons of coal are used during a year in Wichita. Take the immense amount of money this represents and reduce it one-third, and the saving to the city between gas and coal will be seen.

"Wichita cannot afford to miss this opportunity," he says.

ADDIE WILLIAMS DEAD.

Addie E. Williams, colored, aged 39 years and 2 months, died at her home, 300 North Santa Fe avenue, at 1:30 o'clock yesterday morning, after a long illness of tuberculosis. She leaves, besides her parents, two sisters and a brother, who mourn her loss.

The funeral services will be held at the Second Baptist church this afternoon at 2 o'clock, conducted by Rev. Hall. Interment will be made in Maple Grove cemetery.

NEW WAY TO SELL MEDICINE.

Gehring & Higginson Give Guarantee Bond with Mi-o-na, Nature's Cure for Dyspepsia.

Gehring & Higginson have made arrangements to sell Mi-o-na, the marvelous digestion regulator in a new and hitherto unheard of way, furnishing a guarantee bond with every package.

In purchasing a box of Mi-o-na, the purchaser is requested to have this guarantee signed by Gehring & Higginson as their personal agreement to refund the money on return of empty box if Mi-o-na fails to cure dyspepsia and all stomach troubles.

Signed: Gehring & Higginson will give the above bond with every box of Mi-o-na they sell. You run no risk in buying Mi-o-na. That everyone may have faith in this scientific cure for dyspepsia, Mi-o-na is sold under a positive guarantee to refund the money if it does not do all that is claimed for it.

Everyone who is troubled with dyspepsia, headache, distress after eating, dizziness, or loss of appetite or who is looking weight and in a rundown condition, should take the guarantee bond to Gehring & Higginson and commence the use of Mi-o-na at their risk, remembering that the treatment costs you nothing unless it does all that is claimed for it.

NEWS FROM ALL THE RAILROADS

Stopovers Will Be Allowed Fair Travelers.

TEN DAYS THE LIMIT

Items of Interest About Different Employees.

The railroads—every one that does through business via Kansas City—have unanimously decided to grant ten days' stop-over rights on all through world's fair excursion tickets sold to St. Louis from beyond that city from the west, southwest, northwest and south. These will become effective at once.

The announcement was made from Chicago. It was arrived at during the session of the Western Passenger association, which took the matter up and discussed it thoroughly. It was the direct result of the passage of the anti-scalping ordinance.

According to those who know, this is only the beginning of concessions of this sort. Harvest excursion rates will be the next ones to be handled on a stop-over basis. These tickets have hitherto all been to points beyond Kansas City, because the scalpers have managed to manipulate all sorts of round trip tickets and the railroads did not care to have this business so handled. Now, it is asserted, they will be made good to Kansas City, and those reading beyond will have stop-over rights. This has been ordered yes, but it is expected that the next excursion will be so handled.

The first step of the railroads in the matter will probably be the asking for a permanent injunction restraining the brokers from dealing in signature tickets, as being illegal under the city law. This will be asked in Judge Phillips' federal court. There is little chance that he will not grant it, as such a proceeding was carried through in St. Louis. With the federal courts back of them, the railroads will have little to fear, and the stop-overs will then be granted with full certainty that they will not be scalped and made useful to anyone save those entitled to them.

SECOND GAME TODAY.

Santa Fe and Vencedora Clubs to Meet Again.

The second of the series of three baseball games between the Santa Fe and Vencedora clubs will be played this afternoon on the fair grounds here. The last time these two teams met the Santa Fe club was victorious.

The line-up today will be as follows: Santa Fe—L. Rhoades, pitcher; E. Rhoades, catcher; F. Clary, first base; Fitzpatrick, second base; Kitzmiller, short stop; Devlin, second base; Howard, right field; Lightner, left field; Fosnot, center field.

Vencedora—D. Gahman, catcher; E. Burgess, pitcher; E. Breneman, first base; Hill, second base; Auld, short stop; Jones, third base; O. Gahman, right field; Startman, center field; Mercer, left field.

Street cars will be run through to the fair grounds.

LINK AND PIN.

Mrs. Grace Schnoor, wife of a Missouri Pacific brakeman, left in a few days for a month's visit at her old home near Cedar Rapids, Iowa. Mr. Schnoor will accompany his wife to Kansas City.

W. C. Nixon, general superintendent of the Gulf, Colorado and Santa Fe railroad, with headquarters at Galveston, was in Wichita yesterday for a short time.

W. C. Elmore, superintendent of water service for the Santa Fe at Newton, was in the city on business yesterday.

The Missouri Pacific has put in a new fifty-foot crossing at Eleventh street.

O. E. Lovett, clerk of the locomotive and car department of the Missouri Pacific, left last night for Kansas City, where he will remain for a few days to look after some business interests.

William T. Bray, engineer of the Missouri Pacific, left yesterday for Los Angeles, to attend the national convention of locomotive engineers. He represents Wichita division No. 6 of the Brotherhood of Locomotive Engineers.

Frank Furnace, an employee of the bridge and building department of the Missouri Pacific, has resigned.

Switchman Barner, formerly yardmaster at Yates Center for the Missouri Pacific, was in the city yesterday on business.

M. T. Newman, a switchman on the Missouri Pacific, is laying off.

TIGERS TAKE GAME.

Washington Club Beaten by Score of 14 to 4.

The line-up was as follows:

Washington—Clark, pitcher; Clover, catcher; Lyde, first base; Young, second base; McQuerry, short stop; Betts, third base; Davis, left field; Welsh, center field; H. Clover, right field.

Tigers—Burgess, pitcher; Todd, first base; Fet, short stop; Roy, second base; Weiser, third base; Hobson, left field; Barn, center field; Robinson, right field.

BLUE EAGLES WIN.

Second Commercial Club Team Is Defeated by 5 to 10.

The Blue Eagles' baseball team with the second team of the Commercial club, at Riverside park yesterday. The game was an interesting one and resulted in a victory for the Blue Eagles by a score of 5 to 10.

The line-up was as follows: Blue Eagles—J. Whalen, catcher; T. Hunter, pitcher; E. McFarlane, first base; C. Hain, second; R. King, third; F. Hunter, shortstop; G. Marmon, right field; C. Arley, center field; H. Daily, left field.

Commercial college—Pearson, catcher; Warner, pitcher; Hicks, first base; Conner, second; Duncan, third; Smith, shortstop; Geist, right field; Abb, center, and Speed, left.

Southern white students at Michigan university have raised a protest against permitting colored students to be photographed in the same picture with them.

Liquozone acts like oxygen—acts as a tonic with which nothing else known can compare. Let us buy you a bottle to try.

We have purchased more than a million 50c bottles of Liquozone and given them free to the sick. During the past four months, we have spent over \$500,000 to announce and fulfill this offer. We have done this to convince the sick that Liquozone does what medicine cannot do, and we are willing to do the same with you, if you need it.

What Liquozone Is.

Liquozone is the result of a process which, for more than 20 years, has been the constant subject of scientific and chemical research. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. Each cubic inch of Liquozone represents the virtues of 1,250 cubic inches of the gas.

The result is a product which does what oxygen does. Oxygen is the nerve food, the blood food, the gas of life. It is the very essence of vitality, the most essential element of life. But oxygen is a gas and unstable, while Liquozone is fixed and concentrated. It gets an excess of oxygen virtues into the blood, to go wherever the blood goes. The result is a vitalizing tonic with which no other known product can compare.

Kills Inside Germs.

But the great value of Liquozone lies in the fact that it kills germs in

the body without killing the tissues, too. There is nothing else known which will do that. Any drug that kills germs is a poison, and it cannot be taken internally. For that reason, medicine is practically helpless in any germ disease.

Liquozone is so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it cannot kill. The reason is that germs are vegetable; and an excess of oxygen—the very life of an animal—is deadly to vegetable matter. Liquozone is certain destruction to the cause of a germ trouble, yet to the human body it is the most helpful thing in the world.

We paid \$100,000 for the American rights to Liquozone, because this product alone can end a germ disease.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Liquozone kills the germs wherever they are, and the results are inevitable. By destroying the cause of the trouble, it invariably ends the disease, and forever.

Hay Fever—Influenza
Kidney Diseases
La Grippe
Leucorrhea
Liver Troubles
Malaria—Neuralgia
Many Heart Troubles
Piles—Pneumonia
Rheumatism
Scorbut—Quincy
Stomach
Tuberculosis

Catarrh—Cancer
Dysentery—Diarrhea

Venereal Diseases
Whooping Cough
Yellow Fever

50c Bottle Free.

If you need Liquozone, and have never tried it, please send us this coupon. We will then mail you an order on your local druggist for a full-size bottle and we will pay your druggist ourselves for it. This is our free gift, made to convince you, to show you what Liquozone is, and what it can do. In quantity to yourself, please accept it today, for it places you under no obligation whatever. Liquozone costs 50c, and \$1.

CUT OUT THIS COUPON.

For this offer may not appear again. Fill out the blanks and mail it to the Liquozone Co., 435-460 Wabash Ave., Chicago.

My disease is.....

I have never tried Liquozone, but if you will supply me a 50c bottle free I will take it.

Give full address—write plainly.

Any physician or hospital not yet using Liquozone will be gladly supplied for a test.

The Enormous Demand For a Certain Brand of Flour

has caused the manufacturers to add a tremendous sheet iron tank to their mill—a tank that will hold 20,000 bushels of wheat. After the material was all ready it took a corps of workmen a solid month to get the tank completed, and this is only one of the many additions that have been brought about on account of this flour's great prestige. Modern methods and modern machinery are absolutely necessary for the output of high grade flour; they lower the cost of production, thereby allowing a greater expenditure for what the best wheat that money can buy—the kind that is used in Peerless Flour.

Hawkes Cut Glass

Articles are made in so different shapes and for so many various uses, that duplicates are rare. They rank also with gold and silverware in intrinsic value. For presents they are peerless.
